Kevin Haas

Vice President

Commercial Development

DFW International Airport

Kevin Haas is the Vice President of commercial development at DFW International Airport, the fourth busiest airport in the world and second largest airport by land size in the United States.

With nearly two decades of experience, Haas is an expert in airport contracting and business, development, construction, properties and planning. In his current role, Haas is responsible for the strategic planning and implementation of business initiatives for commercial land and facilities development.

In addition, he leads the core of commercial development leasing, construction and property management, along with the development and operations of hotels owned and managed by DFW's subsidiary entity, PFIC (Public Facilities Improvement Corporation). Haas has served in multiple senior-level positions with DFW Airport, including assistant vice president of commercial development, assistant vice president of design and construction management, and assistant vice president of facilities and systems.

Haas holds a Bachelor of Science in aviation administration from Western Michigan University and a Juris Doctor from the University of Miami (Florida). He is a licensed attorney and member of The Florida Bar, a Certified Member of the American Association of Airport Executives and holds a private pilot certificate.
